Edmond Atomic
Atomic Energy
8726 Francophone Rd
Barrie, ON
L5K1D7

Dear Mr. Atomic:

I am very interested in the entry level Chemical Engineering Technologist position with Atomic Energy. I am confident my educational experience and skills gained through previous employment opportunities will be put to great use in this position.

I recently graduated from the Chemical Engineering Technologist Advanced Diploma program at Loyalist College. Throughout my program I participated in a variety of courses that improved my understanding of Chemical Engineering, Extraction Technology, Food Chemistry, and Radiochemistry. In addition, I had the opportunity to complete a one month placement with SGS Lakefield Research, where I completed lab tests and research for a variety of projects. I put together the findings of the lab tests in easy-to-read concise reports for management and gave recommendations for improvements.

My hands on experiences and in class training make me a perfect candidate for a position with Atomic Energy. I would like to thank you in advance for reviewing my résumé and look forward to hearing from you.

Sincerely,

Sandra Cooke
