Stewart Electric  
766A Wallbridge-Loyalist Rd,  
Belleville, ON K8N 4Z5

Mr. Stewart:

This letter is to express my interest in any current or future employment opportunities with Stewart Electric. After speaking with Jack Black, one of your electricians, I am confident I would be an added benefit to your company.

I am currently in the Electrical Techniques Automation program at Loyalist College and plan to continue with my education in Electrical Technician Automation program. My education has provided the theoretical knowledge necessary to have a career as an electrician and gave me the opportunity to practice my skills through hands-on electrical projects. Part of my program involved assisting in the installation, testing, maintaining, repairing, analyzing and troubleshooting of specified electrical circuits, equipment, and systems. In addition to my formal training, I have over five years of experience providing exceptional customer service at Finkle Electric. As a Customer Service Representative, I assisted customers with all their lighting needs including providing basic installation instructions. I also worked at Home Hardware within the electrical department.

My attention to detail and willingness to work in a team make me an excellent candidate for a position with Stewart Electric. I would welcome the opportunity to meet with you at your convenience to discuss my qualifications. Thank you for your time.

Sincerely,

*Steve Tucker*
