Cornwall, ON  
P9K 7H8

Dear Mr. Rocket:

Look no further, I am the Radio Broadcaster with high energy, programming experience and knowledge of Scott systems that you are looking for!

I will graduate in May from the Radio Broadcasting program at Loyalist College. Throughout this program I have gained on-air experience with the College's station 91x where I host two specialty programs "TGIF all request Fridays" and "New Rock 30". In addition, I volunteer at CGHK 92.3 RYE FM, working board operations for fundraising events and often sub in for absent staff on air as required. I have conducted live on air interviews with bands, event organizers and various political personalities and have logged station's daily programming, produced and recorded material. My broad range of technical and on-air experience make me the perfect candidate for your busy station where team members need to be able to cover all positions.

I look forward to meeting with you in person so that you can experience first-hand my outgoing and energetic personality.

Sincerely,

*Joe Robinson*
