

27th Annual PLAR Conference

PLAR – Unleash the Potential!

Prior Learning Assessment and Recognition (PLAR) and Portfolio Development can help Job Seekers and Adult Learners in the following ways:

- Eliminates duplication of learning;
- Streamlines the learning process;
- Can save valuable money and time by only taken courses that are needed;
- Provides a self-assessment tool that can enhance personal growth, development and self-confidence;
- Validates formal and informal learning from all elements of one's life;
- It's a tool that can be used by learners with career or guidance counsellors;
- Prepare to be able to articulate, document and prove prior learning as it relates to a chosen program of study, or a career

At the Conference you will learn how a PLAR portfolio can give you a transportable measurement of your formal and informal learning that can be built upon with each new learning opportunity, rather than repeating learning unnecessarily.
