SMALL GIVES US THE POWER TO DO BIG THINGS

In a world obsessed with big, we are small. Small gives us the power to do big things.

And things that make a big difference to our students, community, and partners.

In an impersonal world of big lecture halls and stadium seating, we know our students by name and circumstance. Small frees us to provide personal one-on-one attention, in small classes and learning environments.

Small means our students feel like they matter. That they belong. That they are no longer invisible in a world which had passed them by.

Small means that we can move mountains to help every student succeed, confident in who they are and what they are capable of becoming.

We are Loyalist College of Applied Arts and Technology.

We are small.
